

CENTRE FOR CONTINUING NURSING EXCELLENCE is a body that provides innovative products based on the integration of academics, life skills and exposure to the Nursing Science. It is a leading scientific research network for nursing stakeholder. The ambition of CCNE is to spread advanced nursing professionals with knowledge and skills in managing certain health care issues and developing clinical practices. It is a forum which connects all to explore issues of mutual concern as well as exchange knowledge of different fields of nursing science and research, share evidence and ideas, and generate solutions.

STM Conferences (STMC) is an online platform where you can get the detail information about the conferences, seminars, workshops and other-related events. This is the platform where the scholars/researchers can share their knowledge and help the modern world to get the maximum utilization through it. STMC is making its mark in the country with the amalgamation of researchers and analysts, inventors, scientists, entrepreneurs, academicians and many more by conducting workshops, training programs, seminars and conferences. These are the events basically based on knowledge exchange and research-sharing concepts.

CCNE Nursing 2018

November
New Delhi

Nursing Excellence Conference & Expo

27th November, 2018
Crowne Plaza
Mayur Vihar,
New Delhi, India

The India's Show

BACKGROUND

Nursing education is skill-based training provided to the nursing opted students. The purpose of Nursing Education is to enhance the development of the nursing profession by educated the nurses in their specific area. They are provided with training on care of individuals and communities and families to attain, recover their optimal health. They may vary from regions and approach based on their scope of practice and their diversity in practice. This is the unique courses of medical education which contain both theoretical and practical training provided to nurses for the purpose to prepare them as nursing care professionals. Nursing at the world stage has attained a decorum and due respect. It is recognized as a noble profession and nowadays given preference by most of the people in advanced countries. The Nursing has expanded itself to all the areas and has not remained confined to hospitals only.
